V.
United STATES of America
Respondent

CRIMINAL CASE # 08-356 (KMK)

The Court granted the Government's request for an extension of time to respond until 7/26/18 - a date which has not yet passed. (Det. No. 162) The Clerk of Court is directed to terminate the pending motion. (DK# 166)

MOTION for SUMMARY Judgement Pursuant to A writ of Coram NOBIS

The Government has NOT responded TO Judge KARAS order dated 5.11.18,
Therefore the Government does NOT oppose the motion for relief filed 5.9.18
The relief the Petitioner is seeking, is the right to Plead guilty to the Plea bargain
Presented to me by the Government AT the reverse proffer meeting. I would have
taken the Plea if NOT Advised by counsel to go to trial because I couldn't get
more time than the Plea offer of 12 years. The Argument he made to me to NOT
accept the Plea was the EXACT Argument he made to the Court in his Sentencing
memorandum And Verbally AT my Sentencing where I received 210 months,
Coram NOBIS has been used in our circuit to give relief to AN incarcerated
person. The Honorable John Gleeson used Coram NOBIS in the case of :
United STATES V. MARIN-Moreno, Lexis 30287, (Mar 2016). IT WAS A
CASE concerning Ineffective Assistance of Counsel And was granted while the
person was in custody. IT WAS A TRIAL CASE And the Government opposed the motion
Judge Gleeson wrote: "Coram NOBIS relief is Available to correct errors of the
most fundamental character. IT gives the Court the Authority to ATTAIN JUSTICE
or to remedy AN INVALID sentence."
For the foregoing reasons, the motion should be granted.

Sincerely,
